# Missed Call Window v2

1. This window pops up when you do a private call to commands like 4000, 9990, 5000 etc

To remove it
Go to CPS – Optional Settings – Digital Fun
Filter Own ID in MissCall – turn ON

2. If someone sends you a Private Call you will get this Window to show you had a Private call.

This link will show my other settings I use
